SETTING UP APPLICATION ENVIRONMENT

Create flask project:

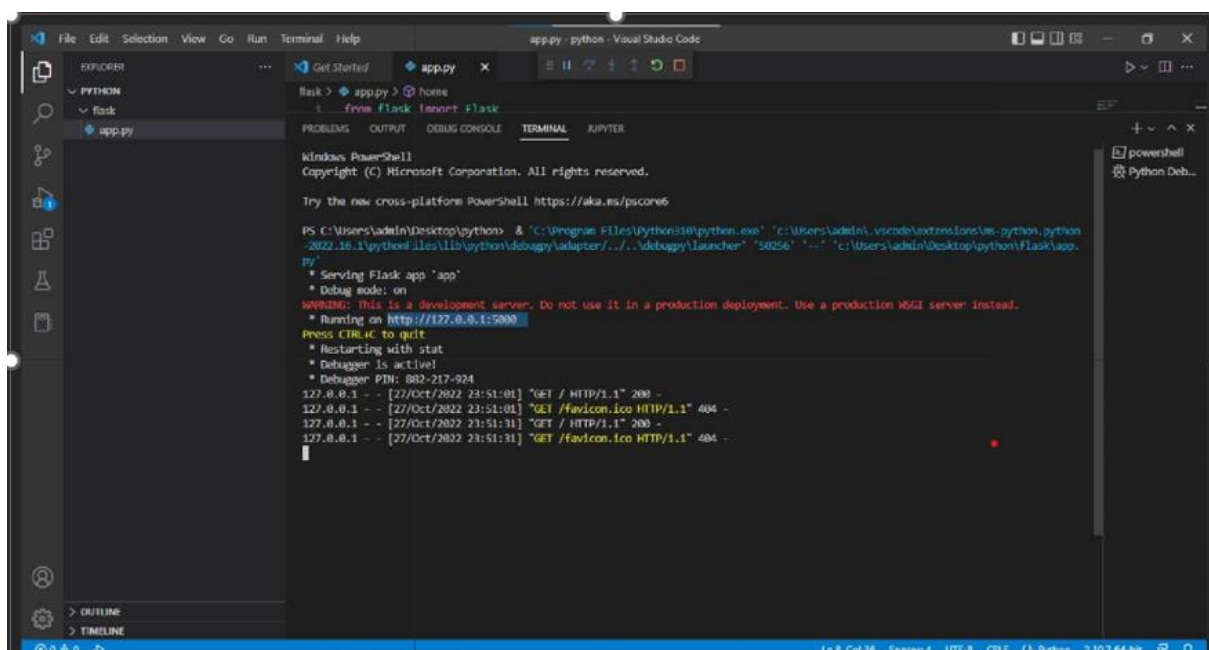

App.py

A screenshot of the Visual Studio Code editor interface. The Explorer pane on the left shows a project structure with 'PYTHON' and 'flask' folders, and an 'app.py' file. The main editor area displays the code for 'app.py'.

```
Back > app.py > ...
1 from flask import Flask
2
3 app=Flask(__name__)
4
5 @app.route("/")
6
7 def home():
8     return '<div>welcome to isac/his'
9
10 if __name__ == '__main__':
11     app.run(debug=True)
```

FLASK:

A screenshot of the Visual Studio Code editor interface, showing the terminal output of running the Flask application. The Explorer pane on the left shows the project structure. The main editor area displays the code for 'app.py'. The terminal pane at the bottom shows the output of running the application.

```
Back > app.py > home
1 from flask import Flask
2
3 app=Flask(__name__)
4
5 @app.route("/")
6
7 def home():
8     return '<div>welcome to isac/his'
9
10 if __name__ == '__main__':
11     app.run(debug=True)
```
